„Referendum on the European Constitution

The Convention recommends to the Inter-Governmental Conference that the draft European Constitution be approved not only by National Parliaments and the European Parliament but also by the citizens of Europe in binding referendums. These referendums should take place in accordance with the constitutional provisions of the member states. They should be held simultaneously on the same day, an option being the same day as the European Parliament Elections in June 2004. Those member states whose constitutions do not currently permit referendums are called upon to hold at least consultative referendums. An information campaign must be publicly funded.“
